TERMS AND CONDITIONS

ELECTRONICS AND COMPUTER PROTECTION PLAN AND REPLACEMENT PLAN

This document and your purchase invoice state all the dispositions of this Protection Plan (Plan), sold by the retailer for the benefit of the plan owner, and the obligations and services to be provided by Comerco Services Inc. (Comerco) for the product covered by this Plan. This Plan is administered by Comerco. Comerco deposits funds in a guarantee trust fund in order to cover future claims. This trust is also bonded in part by an insurance company. Comerco agrees to:

ELECTRONICS AND COMPUTER PLAN:

1. Repair without charge or replace the covered product, in the case of a manufacturing defect or if any of the parts necessary for its normal functioning breaks, under normal conditions of use, during the coverage period of the Plan.
2. Replace the product upon the confirmation, by an authorized technician, of a fourth (4th) failure of the same major part, during the coverage period of the Plan.
3. Repair or replace peripheral items such as a remote control, keyboard, mouse, speakers, 3D viewing glasses and/or external hard drives given with the product, if a covered failure occurs. The coverage period for peripheral items begins at the expiration of the manufacturer's warranty for this accessory and expires at the end of the Protection Plan's period of coverage. Replacement will be limited to one (1) for the length of the Plan. The replacement will terminate the coverage offered for these items.
4. Repair failures due to power surges.
5. Allow one (1) preventive inspection for the duration of the Plan, at the owner's request and according to Comerco's checklist. If a Plan covers several products, the preventive inspection is available for all products, during a single technician visit. The preventive inspection does not apply to computers, peripherals, GPS, cameras, video cameras and office equipment.

REPLACEMENT PLAN:

6. Replace the product that is subject to a failure covered by this Plan.

GENERAL CONDITIONS

7. The Plan becomes effective following the expiry date of the manufacturer's warranty for parts and labour for the chosen term, as indicated on the purchase invoice, up to a maximum of:
 - Five (5) years from the date of possession for electronics
 - Four (4) years from the date of possession for computer products
 - Four (4) years from the date of possession for the Replacement Plan
8. To qualify for coverage offered by the Plan, the covered product must be purchased as new and be covered by a repair warranty period of at least ninety (90) days. Failures must be reported during the coverage period of the Plan.
9. Comerco may, at its sole discretion, decide to replace a product rather than repair it.
10. The maximum value, at the time of a replacement, is the price paid for the original product, as stipulated on the purchase invoice, subject to a maximum amount, excluding taxes, of \$25,000 for the Electronics and Computer Plan and \$300 for the Replacement Plan. Please note that, if the price of the replacement product is less than the price of the original product, the difference will not be refunded. The replacement will be finalized by a Comerco authorized retailer.
11. Comerco's sole obligation will be to provide a replacement product, in accordance with the procedure set out in Article 10, in the event that:
 - the manufacturer ceases to operate; or
 - the parts are no longer available; or
 - in any other circumstance for which, at Comerco's discretion, a repair is not considered.
12. From the moment a product has been replaced or a credit provided, Comerco will have met all its obligations and the coverage will become null and void on that specific product.
13. Repairs will be carried out by a service centre specified by Comerco. Products for which the manufacturer's warranty offered in-home service will be eligible for in-home service under the terms of the Plan. If in-home service is not offered by the manufacturer in the area where the Plan owner resides when a defect occurs, the Plan owner will be responsible for bringing the covered product to a service centre identified by Comerco or obtain a full refund for the value of the Plan from the retailer. Service will be provided during normal business hours. If available and subject to the availability of the service centre, service will be provided, on request, during evenings or on weekends. In order to receive in-home service, the product requiring service must be easily accessible and be in a safe, non-threatening environment, as determined by the technician.
14. This Plan is valid for products intended for use in a domestic single-family dwelling only. Products which are installed in common usage areas of a multi-unit dwelling cannot benefit from this Plan. In the case of a home business, only home daycares and private nursing homes are eligible for coverage. Any other type of business is considered commercial and cannot benefit from this Plan. Commercial or rental usage will render this Plan null and void and if no costs have been incurred by Comerco, the Plan owner may obtain a full refund of the Plan from the retailer.
