All-Day Activity Tracking

Our Letsfit running watch tracks your everyday activities, including our Letsfit pedometer that can measure your steps, distance, calories burned, and more helping you to live a more active and healthier lifestyle.

9 Sports Modes

Choose from 9 sports modes including Running, Walking, Climbing, Hiking, Treadmill, Yoga, Indoor Cycling, and Training, and accurately record your workouts in detail. Know how you perform and how to improve.

Heart Rate and Sleep Monitoring

Monitor your heart rate 24/7 with Letsfit fitness tracker and know whenever your heart misses a beat. Keep track of your sleep and get a detailed analysis of your sleep quality. Letsfit smart watch for iPhone gives deeper insights into your health.

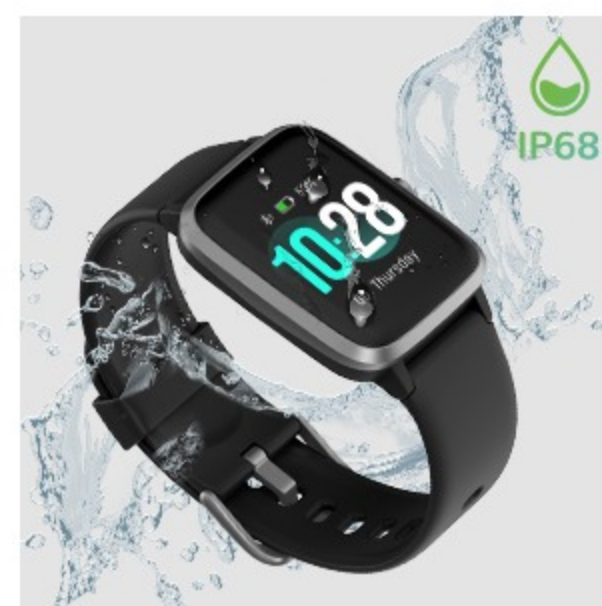

Alarm Clocks

Be organized throughout your day with the alarm clock function built-in Letsfit fitness watch and get reminders when you need to wake up, work, rest, attend a meeting, take medicine, and more.

Music Control

Easily control your music right on your wrist with Letsfit's step counter for walking. Enjoy your music during your workouts and on the go.

IP68 Waterproof

Don't sweat about getting wet and feel free to work out in the rain or when washing your hands with your Letsfit android watch on (note: Please refrain from allowing your smart watch come in contact with hot water).

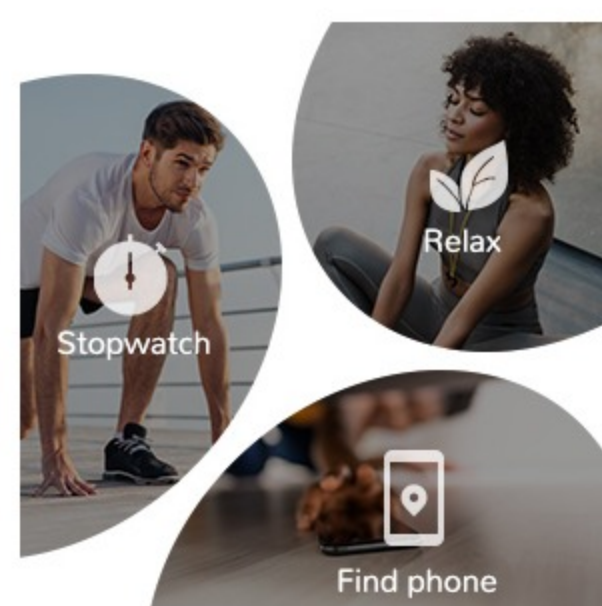

10 Days Battery Life

Enjoy up to 10 days of battery life, or 40 days of standby time on one (2.5-hour) charge. You will always have enough power to 'go the full length'.

Smart Notifications

Receive and read SMS messages and SNS notifications straight to your fitness trackers (including SMS, Facebook, Whatsapp, Twitter, Instagram, Facebook Messenger, LinkedIn, and more). Always stay in the know.

Multi-Functional

Letsfit smart watch for women includes multiple features to help run your day and keep you active, including breathing exercises, timers, sedentary reminders, a stop watch function, and much more.
