Heart Rate Monitoring

With the latest built-in optical sensor, our sports watch can effectively measure your heart rate. It supports automatic detection of pulse frequency (measured every 5 minutes), and can also be switched to manual monitoring mode. Meaning you can know of pulse rate changes in real time.
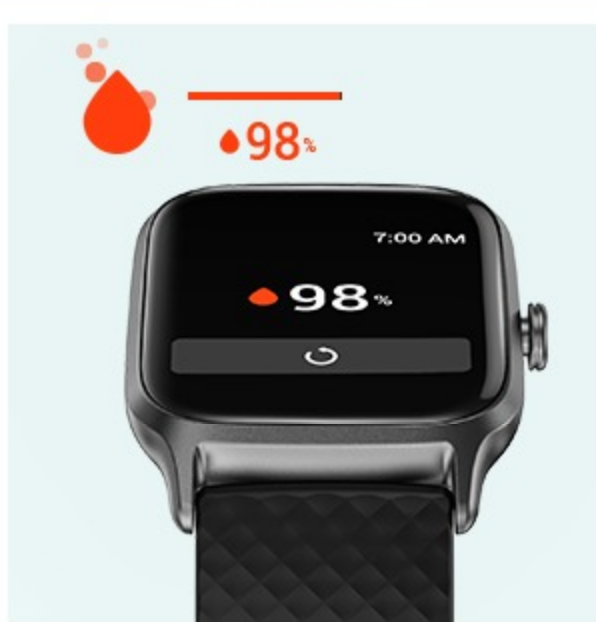

Detects Your Blood Oxygen (SpO2)

Manually detect your SpO2 level readings to help you keep on top of your health and help lead a healthier lifestyle.

**Batterry Life That Lasts for Days**

Enjoy up to 7 days extra-long battery life with magnetic charger provided.

Please note: Smart watch data cannot be used for medical purposes. The monitoring data is for reference only. If you need medical help, please contact a professional doctor.

5ATM Waterproof

Meeting 5ATM waterproof standards, you can wear your smart watch when washing yours hands, running in the rain or even when swimming (swimming data cannot be tracked)
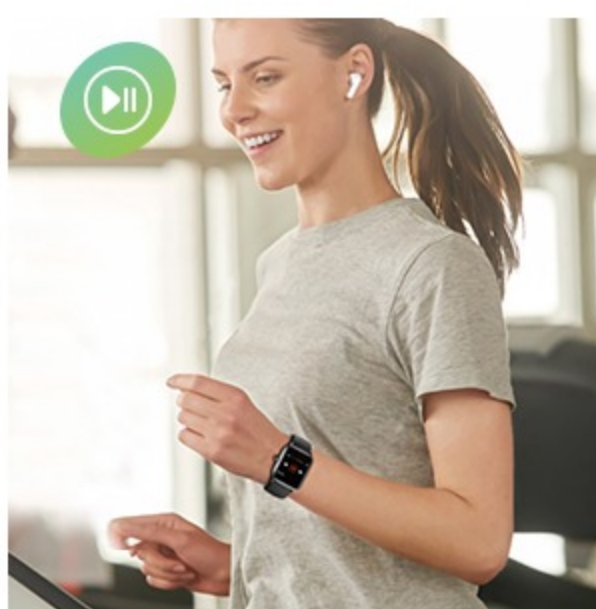

Control your Music

Music control helps you to control your smartphone's music easily when you are on the go or your phone is not at hand.

Alarm Clocks and Sedentary Reminders

Stay on track toward your active goals with sedentary reminders that remind you to stay active. Set alarm clocks easily for everyday tasks such as waking up, appointments and more. Our watch is also equipped with a function for deep breathing training to help you to build a healier lifestyle.
